PDF STUDIO

A calmer way *to work with paper.*

SAMPLE DOCUMENT

Mutual Work Agreement

PREPARED FOR
Alex Morgan

STUDIO
Northline Design Co.

REFERENCE
NW-2026-014

DATE
28 October 2026

A short, human-readable agreement between two people who would rather be making things than reading contracts. It contains real form fields, generous margins for notes, and one page turned on its side — useful for trying every corner of the editor.

INSIDE THIS SAMPLE

01 The agreement
02 Payment & signatures
03 Working notes
04 A page turned sideways

Try the sample in View mode first. Switch to Edit when you want to sign, highlight or change something.

SECTION ONE

The agreement

1.1 Scope of work

Northline Design Co. will design and build a small identity system: a wordmark, a colour and type palette, and a one-page set of usage notes. Two rounds of revisions are included. Additional rounds are billed at the studio's usual day rate.

1.2 Timeline

Work begins on 4 November 2026 and is expected to finish by 16 December 2026. Either party may pause the schedule in writing if feedback takes longer than ten working days.

1.3 What each side provides

The client provides existing brand materials, a decision-maker for feedback, and timely access to any third-party accounts needed. The studio provides weekly progress notes and keeps source files tidy and portable.

A FEW DETAILS

These are real interactive fields — fill them in with the Form fields tool.

FULL NAME: Alex Morgan

STUDIO / COMPANY: Northline Design Co.

EMAIL: alex@northline.example

PACKAGE: Standard identity

☐ I have read and agree to the terms.

◉ Standard ○ Rush

SECTION TWO

Payment and signatures

The total fee for the work described is 8,400 USD, split into two payments: half to begin, half on delivery. Invoices are payable within fourteen days. The studio retains the right to show the finished work in its portfolio unless the client asks otherwise in writing.

ITEM	AMOUNT (USD)
Design fee	6,800.00
Type licensing	900.00
Handover & files	700.00
TOTAL	**8,400.00**

SIGN BELOW

Sign on paper, or use the Signature tool to add your own.

WORKING NOTES

A page for marking up

Use this page to try highlights, underlines, ink, sticky notes and shapes. Nothing here is precious.

01 **Open in View mode**

Scroll, search for “Northline”, and try dark paper from the moon button in the title bar.

02 **Switch to Edit**

The tool rail appears on the left. Choose Highlight and drag across any sentence below.

03 **Sign the agreement**

Pick the Signature tool, draw or type a signature, then click page three. Reuse it later without redrawing.

04 **Leave a sign-here box**

Use the Sign here box tool when someone else needs to sign. It is written into the saved PDF.

05 **Redact something**

Drag over a line with the Redact tool. On save, the covered content is removed rather than hidden.

NOTE

Everything in this sample is fictional. The names, numbers and studio are here only to make the pages feel real while you explore.

APPENDIX

A page turned sideways

Rotated 90° — the editor keeps annotations aligned with the page.

WEEK	FOCUS	OUTPUT	OWNER
01	Discovery	Interview notes, audit	Alex
02	Directions	Two visual routes	Studio
03	Refinement	Chosen route, palette	Both
04	System	Type scale, components	Studio
05	Handover	Files, usage notes	Studio
06	Review	Final sign-off	Alex

WHY THIS PAGE EXISTS

PDF pages can carry their own rotation. A reader has to honour it, and an editor has to keep every highlight, signature and note sitting on the right spot. This page is here so you can check both.
